

AUB Electric vehicle charging guide

1. There are 4 EV charging bays (2 x twin charge points), in the gravel spaces outside North Lights studio 1 (The Print room).

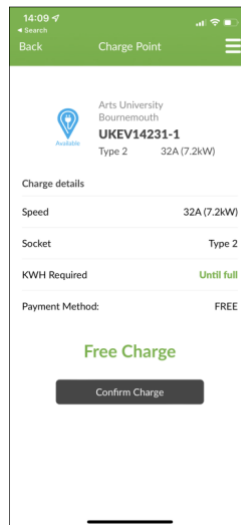

2. Download the **VendElectric app** and create a personal login

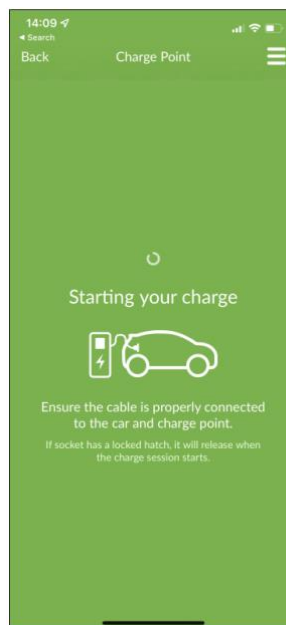

3. Scan the QR Code on the side of the charger or enter the location manually using the UKEV number.

4. Click confirm charge (please note that currently the charge tariff is free but this is subject to change).

5. Wait for the charger to connect to the vehicle.

6. Once the charge is confirmed you can leave the vehicle to charge. Keep an eye on the % charge and once sufficiently charge please return to your vehicle and move it to another bay.

Please report any problems with the charger or any questions to campusserviceteam@aub.ac.uk
