# I'd like to offer a warm welcome to all of you as you explore your next steps during your visit to Arts University Bournemouth.

Arts University Bournemouth – AUB – is unique.

Here at AUB we offer a distinctive environment where creators, makers, innovators and thinkers are brought together to create and collaborate.

Our learning community is a caring and sharing place for all who have a passion for the creative arts. We work closely with industry and the professions as we make our graduates ready for life and work. We offer access to cutting edge equipment and facilities, outstanding technical support, and a leading reputation in the overlaps between creativity and technology. We are proud of our digital and online support and the powerful sense of belonging you will feel when you visit our beautiful campus.

Our outstanding courses in art, design, media, writing and performance offer students an opportunity to hone their craft and practice, deepen their thinking and develop the entrepreneurial skills that enable graduates to transform creativity into successful and fulfilling careers. Indeed, many of our graduates have become experts in their respective fields, attracting the admiration of their peers through accolades including an Olivier Award and BAFTA, a Knighthood, and even an Olympic Gold Medal.

We've also been recognised for our Excellence in Teaching through our TEF Gold award, our Outstanding achievement in the 2023 Ofsted inspection, numerous other achievements and we have a reputation as a top 5 University for Teaching Quality and Student Experience.

But for me, perhaps what stands out the most about our university is our relentless desire to collaborate. To innovate and to connect. Film Production students work with Costume students, Graphic Designers work with Animators, Fine Artists with Events Managers, and Creative Writers work with Actors. It is through these exciting collaborative adventures that new interdisciplinary projects, ideas and creations are realised.

Choosing your preferred university is certainly an important undertaking, and I would urge you to look at all contributing factors very carefully while you decide. However, I can assure you that at AUB, you'll find a caring and nurturing environment that underpins and supports your work, but also offers fresh challenges to stretch your talents and creative journey, wherever that may lead.
