# UK SUMMER COURSES MILLINERY

# MILLINERY

A UNIQUE OPPORTUNITY TO  
LEARN THE ART OF HAT MAKING

3 WEEKS  
JULY 2013

COURSE  
FEE

£1,750

\*Including accommodation

Our 3-week intensive millinery course has been designed to give you the unique opportunity to learn the art of hat making. Our specialist teachers will introduce you to essential millinery theory and techniques, revealing some of the trade secrets to achieving a professional finish in a variety of hat styles.

As the sewing on this course will be done by hand, you do not need any millinery experience, just an interest in hats and the desire to learn new skills.

You will explore hat design and construction through the ages, gaining an understanding of internationally recognised milliners' work in both a contemporary and historical context. You will be introduced to a wide variety of materials and methods of construction including fundamental aspects of millinery, such as wiring and stitching. Working in our specialist studios, you will use traditional millinery tools as well as contemporary techniques to develop your understanding of design and proportion.

During the course you will be introduced to the basics of using and working with felt and be encouraged to explore the capabilities of the material. You will design and create your own made-to-measure felt hat and be introduced to decorative techniques such as felt trimming and draping.

You will be encouraged to develop your own signature style using drawing and research. Through tutor-led demonstrations, you will also learn the techniques for creating and constructing your own hat block from Buckram, which can be used for your own future hat creations.
